ABC's of Technology — Phone Stand

Build a simple stand with cardboard and a grown-up.

What You Need

Cardboard • Scissors (grown-up use) • Marker • Ruler • Tape

1. Cut the Base

Cut a cardboard rectangle about 6 × 3 inches.

2. Add the Slot

Cut a small slot near the middle.

3. Stand It Up

Slide the back piece into the slot to form a stand.

4. Decorate

Add color, shapes or stickers.

Try It!

Test the stand with a small device. What would you change?
